## **Samenstellings verklaring van de accountant**

The financial statements of Stichting Ecosystem Restoration Foundation, Diepenveen, have been compiled by us using the information provided by you. The financial statements comprise the balance sheet as per 31 December 2020 and the profit and loss account for the year then ended with the accompanying explanatory notes. These notes include a summary of the accounting policies which have been applied.

This compilation engagement has been performed by us in accordance with Dutch law, including the Dutch Standard 4410, 'Compilation engagements', which is applicable to accountants. The standard requires us to assist you in the preparation and presentation of the financial statements in accordance with the entity's accounting policies for valuation and determination of results, as included in the notes to the financial statements. To this end we have applied our professional expertise in accounting and financial reporting.

In a compilation engagement, you are responsible for ensuring that you provide us with all relevant information and that this information is correct. Therefore, we have conducted our work, in accordance with the applicable regulations, on the assumption that you have fulfilled your responsibility. To conclude our work, we have read the financial statements as a whole to consider whether the financial statements as presented correspond with our understanding of Stichting Ecosystem Restoration Foundation.

During this engagement we have complied with the relevant ethical requirements prescribed by the 'Verordening Gedrags- en Beroepsregels Accountants' (VGBA). You and other users of these financial statements may therefore assume that we have conducted the engagement in a professional, competent and objective manner and with due care and integrity and that we will treat all information provided to us as confidential.

## **Notes to the financial statements**

### ***Entity information***

#### **Registered address and registration number trade register**

The actual address of Stichting Ecosystem Restoration Foundation is Wechelerweg 37, 7431 PD in Diepenveen. Stichting Ecosystem Restoration Foundation is registered at the Chamber of Commerce under number 68105800.

### ***General notes***

#### **The most important activities of the company**

The activities of Stichting Ecosystem Restoration Foundation, having its legal seat at Diepenveen, primarily consist of develop common activities to restore ecosystems.

#### **The location of the actual activities**

The actual address of Stichting Ecosystem Restoration Foundation is Wechelerweg 37, 7431 PD in Diepenveen.

### ***General accounting principles***

#### **The accounting standards used to prepare the financial statements**

The financial statements are drawn up in accordance with the firm pronouncements in the Dutch Accounting Standards, as published by the Dutch Accounting Standards Board ('Raad voor de Jaarverslaggeving').

Assets and liabilities are generally valued at historical cost, production cost or at fair value at the time of acquisition. If no specific valuation principle has been stated, valuation is at historical cost.

### ***Accounting principles***

#### **Property, plant and equipment**

Land and buildings are valued at historical cost plus additional costs or production cost less straight-line depreciation based on the expected life. Land is not depreciated. Impairments expected on the balance sheet date are taken into account.

Other tangible fixed assets are valued at historical cost or production cost including directly attributable costs, less straight-line depreciation based on the expected future life and impairments.

Subsidies on investments will be deducted from the historical cost price or production cost of the assets to which the subsidies relate.

For obligations to restore the asset after use (dismantling cost) a provision is recognised for the expected amount at the time of capitalisation. This amount is recognised as part of the carrying amount of the asset against which a provision is formed for the full amount.

A provision for major maintenance has been created for the future costs of major maintenance to the buildings. The addition to the provision is determined based on the expected amount of the maintenance work and the intervals between the times when

major maintenance work is carried out.

### **Receivables**

Receivables are initially valued at the fair value of the consideration to be received. Receivables are subsequently valued at the amortised cost price. If there is no premium or discount and there are no transaction costs, the amortised cost price equals the nominal value of the accounts receivable. If payment of the receivable is postponed under an extended payment deadline, fair value is measured on the basis of the discounted value of the expected revenues. Interest gains are recognised using the effective interest method. Provisions for bad debts are deducted from the carrying amount of the receivable.

### **Cash and cash equivalents**

Cash at banks and in hand represent cash in hand, bank balances and deposits with terms of less than twelve months. Overdrafts at banks are recognised as part of debts to lending institutions under current liabilities. Cash at banks and in hand is valued at nominal value.

### **Equity**

When Stichting Ecosystem Restoration Foundation purchases treasury shares, the consideration paid is deducted from equity (other reserves or any other reserve if the articles of association allow so) until the shares are cancelled or reissued. Where such shares are subsequently reissued, any consideration received is included in equity (other reserves or any other reserve). The consideration received will be added to the reserve from which earlier the purchase price has been deducted.

Incremental costs directly attributable to the purchase, sale and/or issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

### **Current liabilities**

On initial recognition current liabilities are recognised at fair value. After initial recognition current liabilities are recognised at the amortised cost price, being the amount received taking into account premiums or discounts and minus transaction costs. This is usually the nominal value.

### **Accounting principles for determining the result**

The result is the difference between the realisable value of the goods/services provided and the costs and other charges during the year. The results on transactions are recognised in the year in which they are realised.

### **Other operating expenses**

Costs are determined on a historical basis and are attributed to the reporting year to which they relate.

### **Interest expenses and related expenses**

Interest expenses are recognised on a pro rata basis, taking account of the effective interest rate of the liabilities to which they relate. In accounting for interest expenses, the recognised transaction expenses for loans received are taken into consideration.

### **Financial income and expenses**

Interest income and expenses are recognised on a pro rata basis, taking account of the effective interest rate of the assets and liabilities to which they relate. In accounting for interest expenses, the recognised transaction expenses for loans received are taken into

Stichting Ecosystem Restoration Foundation  
Diepenveen

consideration.

Exchange differences that arise from the settlement or translation of monetary items are recorded in the profit and loss account in the period in which they occur, unless hedge-accounting is applied.
